

# REIN DEER

## MASK

### *You will need*

2 SHEETS OF WHITE CARD

SCISSORS

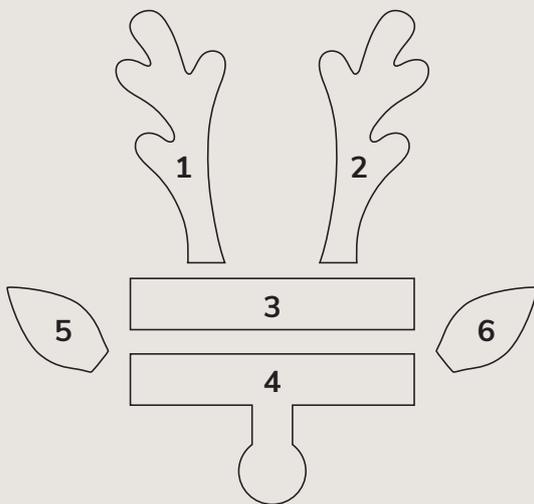

GLUE

STAPLE OR SELLOTAPE

FINE CARDBOARD

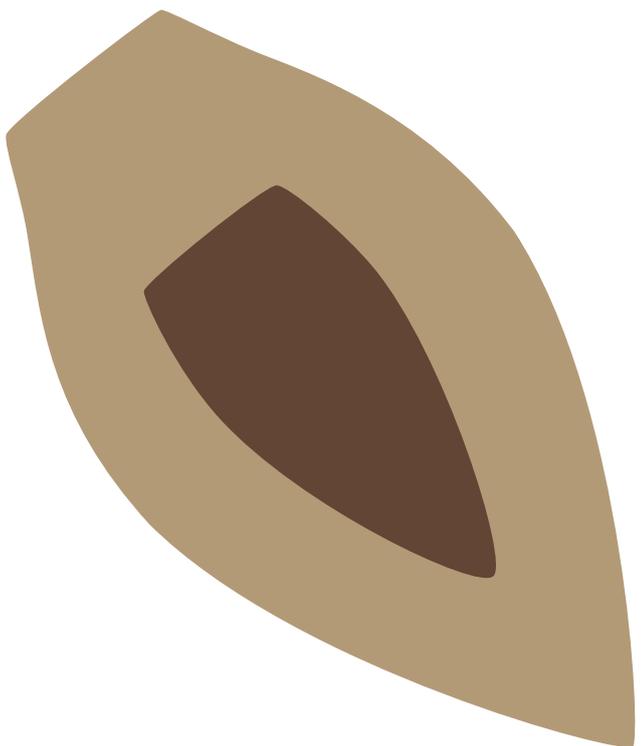

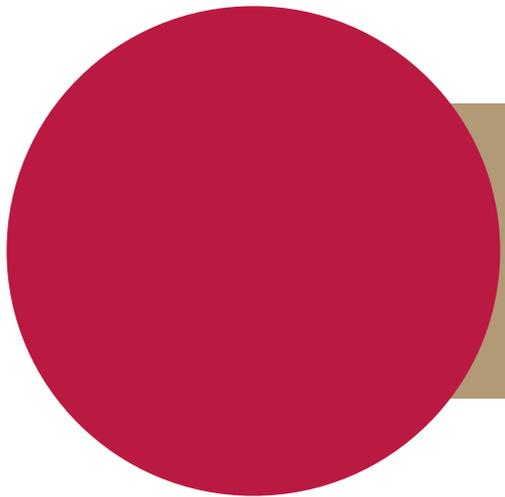

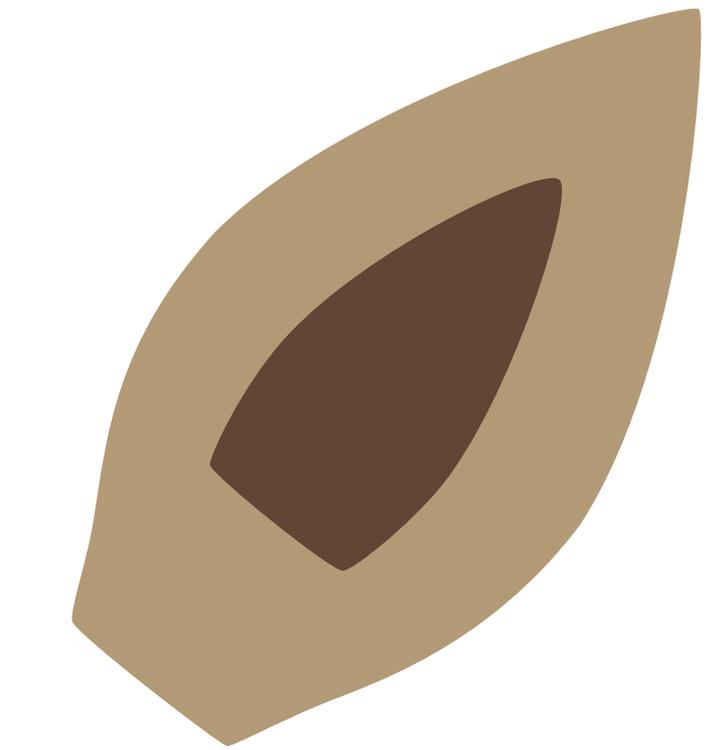

### *Step by step*

1. Print the pieces on two white cards and cut them out.
2. Glue the ears (5 & 6) to the place marked on piece 4.
3. Use the horns (1 & 2) as template and draw them on any fine cardboard you have got at home; cut them out and glue them to the back of the printed horns to strengthen them. When dry, glue them in the place marked on piece 4.
4. Staple the nose piece (4) with the strip (3) on one side. Try on the mask and staple the other end, adjusting to the width of your head. Bear in mind that it must fit onto your forehead so the nose is above yours.

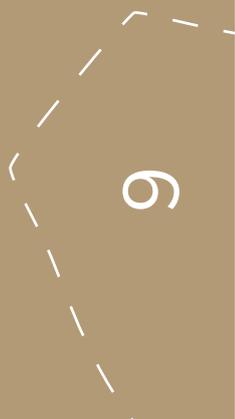

You can put a bit of glue on the nose and add some glitter to shine this Christmas.
